

**In addition to our ISO/IEC 17025:2005 accreditation,  
Graftel, LLC. is now an ANSI/NCSL Z540.3-2006 Accredited Lab**

We have been accredited by Laboratory Accreditation Bureau under their METCAP program which is recognized by the National Cooperation for Laboratory Accreditation (NACLA).

The METCAP Program certifies those **ISO/IEC 17025** accredited laboratories that are in compliance with **sub-clause 5.3** of the National Standard **ANSI/NCSL Z540.3-2006**.

METCAP Laboratories apply the requirements of sub clause 5.3 to their own Measuring and Test Equipment (M&TE) and calculate the Probability of False Acceptance (PFA)\* for their own M&TE. This enables customers to identify the measurement decision risk associated with the calibrations.

*We at Graftel, LLC. pride ourselves on expanding our capabilities and services to reach the highest level of quality for our customers.*

\*The probability of false accept (PFA) is the principle metric by which the quality of a calibration process can be evaluated.

Graftel, LLC. 870 Cambridge Drive Elk Grove Village, IL. 60007 Ph. 847-364-2600 - Fx. 847-364-2899
